

JaNae Joyner, PhD, MHA # 4 and # 15

JaNae Joyner, PhD, MHA, received her PhD in Molecular Medicine in 2007 from Wake Forest University where her research focused on translational basic science, community programming, and continuing medical education for primary care physicians related to hypertension, dyslipidemia, and diabetes. After receiving her Masters in Healthcare Administration (MHA) in 2014, Dr. Joyner transitioned to a role as Program Director for Academic Affairs at Wake Forest School of Medicine where she held operational and curricular innovation responsibilities. Dr. Joyner currently serves as the Director of Health Care Education and Innovation and the Executive Director of the Center for Experiential and Applied Learning (CEAL). CEAL serves as an institutional training center for students, (MD, PA, CRNA, Graduate), residents, faculty, nurses, allied health, community schools, and K-12 education. The Center specializes in simulation, ultrasound, human tissue services, instructional design industry and professional education, and standardized patients holding over a 1,000 training sessions per year.. Dr. Joyner has received numerous early career investigator awards, has published over 10 manuscripts and 40 abstracts at regional, national and international meetings, and has been honored to attend epidemiology and leadership programs at Johns Hopkins and Harvard Business School. She has two post-graduate certificates from the Kenan Flagler School of Business at the University of North Carolina Chapel Hill in Management and Business Acumen.
