

Virginia Tech Primary/Affiliate Faculty

Luke Achenie, PhD

Professor

Research Interest: Chemical engineering

Email: achenie@vt.edu

Masoud Agah, PhD

Professor

Research Interests: Micro analytical chemistry, BioMEMS/NEMS, microfluidics, micro and nano fabrication

Email: agah@vt.edu

Bahareh Behkam, PhD

Associate Professor

Research Interest: Biomechanics, nanoengineering

Email: behkam@vt.edu

Myra Blanco, PhD

Director, Center for Automated Vehicle Systems

Research Interest: human factors engineering, vehicle devices, automated vehicles

Email: mblanco@vti.vt.edu

Guohua Cao, PhD

Assistant Professor

Research Interest: Biomedical Imaging, X-ray imaging, computed tomography, deep learning

Email: ghcao@vt.edu

John Chappell, PhD

Assistant Professor

Research Interest: Cardiovascular engineering, computational modeling

Email: jchappell@vtc.vt.edu

Rafael Davalos, PhD

L. Preston Wade Professor

Research Interest: Bioelectromechanical System Laboratory, fluid mechanics, translational cancer research, biotransport

Email: davalos@vt.edu

Raffaella De Vita, PhD

Associate Professor

Research Interest: Biomaterials, biomechanics, solid mechanics

Email: devita@vt.edu

Thomas Diller, PhD

Professor

Research Interest: Mechanical engineering

Email: tdiller@vt.edu

Stefan Duma, PhD

Harry C. Wyatt Professor of Engineering

Research Interest: Injury and impact biomechanics, automobile safety design, sports biomechanics, military restraint systems

Email: duma@vt.edu

Wu Feng, PhD

Professor

Research Interest: Computer science, electrical and computer engineering

Email: feng@cs.vt.edu

M. Friedlander, PhD

Professor

Research Interest: Biomedical engineering, neuroengineering

Email: friedlan@vt.edu

H. Clay Gabler, PhD

Samuel Herrick Professor of Engineering

Research Interest: Biomechanics, injury biomechanics, automated vehicle crash safety

Email: gabler@vt.edu

Harold Garner, PhD

Executive Director, Virginia Bioinformatics Institute

Research Interest: Computational biology, plasma physics, nuclear engineering

Email: garners@vt.edu

Aaron Goldstein, PhD

Associate Professor

Research Interest: Chemical engineering

Email: goldst@vt.edu

Robert Gourdie, PhD

Professor, Regenerative Medicine

Research Interest: Cardiovascular engineering

Email: gourdier@vtc.vt.edu

Warren Hardy, PhD

Associate Professor

Research Interest: Biomedical engineering, mechanical engineering, bioengineering

Email: whardy@vt.edu

Deborah Kelly, PhD

Associate Professor

Research Interest: Chemistry, biochemistry

Email: debkelly@vtc.vt.edu

Andrew Kemper, PhD

Assistant Professor

Research Interest: Biomechanics, injury and impact biomechanics, automotive safety

Email: akemper@vt.edu

Brooks King-Casas, PhD

Associate Professor

Research Interest: Biomedical engineering, mechanical engineering

Email: bkcasas@vt.edu

Charlie Klauer, PhD

Research Group Leader

Research Interest: Industrial and systems engineering, human factors option, vehicle safety

Email: cklauer@vti.vt.edu

Stephen LaConte, PhD

Associate Professor

Research Interest: Biomedical engineering, neuroengineering

Email: slaconte@vt.edu

Yong Woo Lee, PhD

Associate Professor

Research Interest: Biomaterials, Nanoengineering, nanobioengineering, translational cancer research

Email: ywlee@vt.edu

Alexander Leonessa, PhD

Associate Professor

Research Interest: Mechanical engineering

Email: leonessa@vt.edu

Liwu Li, PhD

Professor

Research Interest: Cellular and molecular biology, biochemistry

Email: sbhandar@wakehealth.edu

Tim Long, PhD

Professor

Research Interest: Chemical engineering

Email: telong@vt.edu

Chang Lu, PhD

Professor

Research Interest: Chemical engineering, microfluidics, tissue engineering

Email: changlu@vt.edu

Read Montague Jr., PhD

Professor

Research Interest: Neuroengineering

Email: read@vtc.vt.edu

Alexei Morozov, PhD

Assistant Professor

Research Interest: Neuroengineering

Email: alexeim@vt.edu

Konark Mukherjee, PhD

Assistant Professor

Research Interest: Psychiatry and behavioral medicine, biological sciences

Email: konark@vtc.vt.edu

T. M. Murali, PhD

Professor

Research Interest: Computer science, bioinformatics, computational biology

Email: murali@cs.vt.edu

Jennifer Munson, PhD

Assistant Professor

Research Interest: Fluid mechanics, neuroengineering, tissue engineering, translational cancer research

Email: Jm4kt@vt.edu

Amrinder Nain, PhD

Associate Professor

Research Interest: Biomechanical, Micro and nano engineering

Email: main@vt.edu

Maury Nussbaum, PhD

H.G. Prillaman Professor

Research Interest: Human factors engineering and ergonomics

Email: nussbaum@vt.edu

Miguel Perez, PhD

Associate Professor

Research Interest: Biomechanics, dynamics and control

Email: mperez@vt.edu

Steve Poelzing, PhD

Associate Professor

Research Interest: Cardiovascular engineering

Email: poelzing@vtc.vt.edu

Robin Queen, PhD

Associate Professor

Research Interest: Biomechanics

Email: rmqueen@vt.edu

Padma Rajagopalan, PhD

Robert E. Hord Endowed Professor

Research Interest: Biomaterials, cell and tissue engineering

Email: padmar@vt.edu

John Robertson, VMD, PhD

Professor

Research Interest: Biomaterials, cardiovascular engineering, fluid mechanics, neuroengineering, tissue engineering, translational cancer research

Email: drbob@vt.edu

John Rossmeisl, DVM, MS

Dr. and Mrs. Dorsey Taylor Mahin Professor

Research Interest: Primary brain tumors, medical device development, endocrinology

Email: jrossmei@vt.edu

Steve Rowson, PhD
Associate Professor
Research Interest: Biomechanics
Email: rowson@vt.edu

Jake Socha, PhD
Associate Professor
Research Interest: Biomechanics
Email: jjsocha@vt.edu

Harald Sontheimer, PhD
Professor
Research Interest: Neurobiology,
Email: sontheimer@vt.edu

Anne Staples, PhD
Associate Professor
Research Interest: Biomechanics, fluid
mechanics
Email: aestaples@vt.edu

Mark Stremler, PhD
Associate Professor
Research Interest: Fluid mechanics, vortex
dynamics
Email: stremler@vt.edu

Rong Tong, PhD
Assistant Professor
Research Interest: Chemical engineering,
biomaterials, nanomedicine
Email: rtong@vt.edu

Alexandrina Untaroiu, PhD
Assistant Professor
Research Interest: Mechanical and aerospace
engineering
Email: alexu@vt.edu

Costin Untaroiu, PhD
Associate Professor
Research Interest: Biomechanics, dynamic and
control, solid mechanics, tissue engineering
Email: costin@vt.edu

Pamela VandeVord, PhD
N. Waldo Harrison Professor
Research Interest: Biomechanics,
nanobioengineering, neuroengineering tissue
engineering
Email: pvord@vt.edu

Mark Van Dyke, PhD
Associate Professor
Research Interest: Biomaterials,
nanobioengineering, neuroengineering, tissue
engineering
Email: mvandyk5@vt.edu

Scott Verbridge, PhD

Associate Professor

Research Interest: Biomaterials, biomedical imaging, neuroengineering, tissue engineering, translational cancer research

Email: sverb@vt.edu

Sujith Vijayan, PhD

Assistant Professor

Research Interest: Computational modeling, neurobiology, cognitive science, brain disorders

Email: Neuron99@vt.edu

Eli Vlaisavljevich, PhD

Assistant Professor

Research Interest: Biomaterials, biomechanics, biomedical imaging, nanobioengineering, tissue engineering, translational cancer research

Email: eliv@vt.edu

Vincent Wang, PhD

Associate Professor

Research Interest: Biomaterials, biomechanics, solid mechanics

Email: vmwang@vt.edu

Abby Whittington, PhD

Associate Professor

Research Interest: Chemical engineering, biomaterials, tissue engineering

Email: awhit@vt.edu

Chris Wyatt, PhD

Associate Professor

Research Interest: Active inference, machine learning, artificial intelligence

Email: clwyatt@vt.edu

Yong Xu, PhD

Associate Professor

Research Interest: Nanophotonics, nonlinear optics, thermal tomography

Email: yong@vt.edu

Jason Xuan, PhD

Professor

Research Interest: Electrical and computer science engineering

Email: xuan@vt.edu

Yizhueng Zhu, PhD

Assistant Professor

Research Interest: Electronic engineering, optical coherence imaging, quantitative microscopy/nanoscopy, biomedical interferometry

Email: Yizhu1@vt.edu
