

WFU TOOLBOXES BETA RELEASE NOTES

12/08/05

Version 1.0

- initial release

01/09/06

Version 1.1

- contrast manager slice by slice i/o to allow bigger data sets
- new regression code
- FWE now a viable SPM choice for correlation
- 01/04/06 WFU_PickAtlas version included in wfu_toolboxes

04/10/06

Version 1.2

- SPM2, SPM5 compatibility
- all file prefixes set to wfu_bpm
- additional notes, comments
- 02/24/06 WFU_PickAtlas version included in wfu_toolboxes

06/29/06

Version 1.3

- added ANCOVA with ROI
- added correlation with ROI
- added regression choice of F or +/- T

- removed contrast manager constant d
- speeded up analysis and contrast manager
- modified `spm_est_smoothness` function:
 - removed Inf values from SPM's estimation of smoothness
 - and created `maskInf` image to show location of values removed

08/01/06

Version 1.4

- added homologous correlation field
- 08/01/06 `WFU_PickAtlas` version included in `wfu_toolboxes`

10/02/06

Version 1.5

- added partial correlation
- added `spm` insertion tool choice of correlation inference
 - (homologous correlation field or T field)
- misc updates
- 09/28/06 `WFU_PickAtlas` version included in `wfu_toolboxes`

10/20/06

Version 1.5b

- README files renamed and inserted into PDF document
- modified `wfu_insert_map` to remove +2 on `map.erd` for
 - homologous correlation field
- commented out display of two messages in compatibility code

- posted to the ANSIR lab web site

01/11/07

Version 1.5c

- 01/09/07 WFU_PickAtlas version included in wfu_toolboxes
- updated the NEUROIMAGE reference

02/14/07, 03/02/07

Version 1.5d

- 02/13/07, /03/02/07 WFU_PickAtlas version included in wfu_toolboxes
- modified wfu_startup.m to reference lower case wfu_pickatlas dir name
