HEALTH CAREERS and WORKFORCE DIVERSITY

Grades 9-12—

- **Camp Med Burke County** – Partnership: Carolinas HealthCare System - Blue Ridge, Burke County Schools and Northwest AHEC. Coordinated and hosted by the Carolinas HealthCare System - Blue Ridge where **16** students participated from **Burke** County. Northwest AHEC provides \$1,500 in support for each program and makes this offer each fall for the upcoming summer.
- **Northwest AHEC Scholars Program** – College students are recruited from Wake Forest and Winston-Salem State Universities to participate in a 3-year program. The first two years consist of didactic and clinical components to enhance their opportunities after matriculation for health professions' graduate school or employment. The third year will be an opportunity for students to fully participate in an evaluative forum to provide feedback about the first two years and thereby, help to improve program quality for current/future students.

Community Health Partnerships

- Northwest AHEC's Community Health Partnerships program was initiated to enhance the work of health coalitions in our region and to link them with the resources of the NC AHEC system. Since 2000, we have co-sponsored, with the Regional NC DHHS Healthy Carolinians/Health Education Consultant, meetings of the Coalition Coordinators' Network (CCN), a networking and education venue for those involved with coalition work. Although state funding was eliminated for the county's Healthy Carolinians' consultant positions, many local counties used local or grant funds to continue; therefore, Northwest AHEC continued our support of the Northwest AHEC Coalition Coordinators' Network.
- This year we held an educational program on community responses to the opioid epidemic and plan to offer a program on diversity, bias, privilege and the social determinants of health. We also continued to utilize a listserv which was established for the CCN to facilitate networking and idea sharing.
