THE PROGRAM: Wake Forest University Graduate School of Arts and Sciences in Winston-Salem, North Carolina is offering a post-baccalaureate research program for graduates, who are from groups underrepresented in the biomedical sciences, as defined by NIH (see below). The focus of the program is on research training, academic enhancement, and GRE preparation. The curriculum includes “hands-on” laboratory research, a journal club, and a lecture series that features presentations by faculty and guest speakers. Graduates with an interest in a biomedical research career and who have already obtained their college degree are encouraged to apply.

ELIGIBILITY: Applicants applying to this program must be/have:

- Underrepresented minorities (i.e. African American, Alaskan Native, Asian-American, Native American, Pacific Islander or Hispanic)
- Individuals with disabilities, defined as physical or mental impairment that limits major life activities
- GPA of 2.5 or greater
- GRE scores
- U.S. Citizens or permanent residents of the United States
- College graduates within 3 years of their undergraduate degree

PROGRAM DATES AND INFORMATION: The WFU PREP will begin in early August 2018. Program participants will receive an annual salary of $27,200 plus tuition and shared health care coverage. The program is sponsored by the National Institute of General Medical Sciences.
