This document contains the questionnaires and codebook used in the evaluation of the quality of care in the clinical centers of the National Centers of Excellence in Women's Health. In the associated data file, the variable name was the same as the question number in the questionnaire. For example, question A1 in the survey of clients at the CoE sites ("First, what is your age?") is variable "A1" in the data file.

Similarly, the numeric values associated with responses are also shown in the question. For example, for question Q.A10 in the Community Benchmark Survey ("Is this health professional male or female?")), respondents who answered "male" have a value of "1" in the data file; those who answered "female" have a value of "2"; those who refused to answer have a value of "7"; and those who said "don't know" have a value "8."

The Appendix contains the numeric values for the responses to open-ended questions and those questions which had a number of "other" responses.

Note to Users: This uniform coding booklet was developed for telephone interview coding. For mailed surveys the coding may still be used to provide uniform scoring and data comparison across studies, however please disregard the interviewer prompts and script.

Formatting: Interviewer script is in bold.

INSTRUCTIONS TO INTERVIEWERS ARE IN CAPS.

Paperwork Reduction Act Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to vary from 13 to 22 minutes with an average of 15 minutes per response.

SECTION C. SATISFACTION

C1. We are interested in your opinions about your care at <COLLOQUIAL NAME OF SITE>, including all the doctors, nurses and other health professionals who are involved in your care as well as the staff. First, I’m going to ask about the visit you had to <COLLOQUIAL NAME OF SITE> in <month of MOST RECENT ELIGIBLE visit from A4> for <reason for MOST RECENT ELIGIBLE from A5 or A6a>. I’m going to read a list of things about that visit. Please rate how satisfied you were with each of these things. Your choices are: not at all satisfied, somewhat satisfied, satisfied, very satisfied, and extremely satisfied.
